

LANDMINE VICTIM ASSISTANCE IN SOUTH EAST EUROPE

Final study report
available at

www.handicapinternational.be/ITFVAStudyreport.pdf

KEY ISSUES TO BE ADDRESSED IN SOUTH EAST EUROPE

- Access to appropriate and affordable health care and rehabilitation facilities
- Improve and upgrade existing facilities
- Lack of opportunities for economic reintegration
- Capacity building/training of health care providers
- Establish effective social welfare systems and legislation
- Resources to support facilities and programs
- Raise awareness on the rights and needs of persons with disabilities
